

# Freetrack the ideal office Compactus®

Freetrack provides high capacity in-office storage together with speed of access. You can tailor a system to suit your available space by simply cutting the tracks to the required length. No timber infill or floor fixing is required so Freetrack is easy and cost effective to install, relocate or reconfigure.

## Application

Ideal for low to medium use, high capacity office storage

Specifications	Dimensions

System Overall Heights	Add 65mm to bay height
Bay Carrying Capacity	Up to 500kg
Bay Width Clear Entry	750, 900, 1050, 1200mm
Bay Clear Depth	300mm Shelf height - 250DE, 300, 400, 450, 500, 600mm
Shelf Carrying Capacity	30mm Shelf up to 130kg With stiffeners 240kgs
Shelf Pitch	25mm

## Features

### Light Weight Runners

By using "light weight" runners Freetrack does not require a heavy base, thereby reducing operator strain. This also means there is less load imposed on the floor.

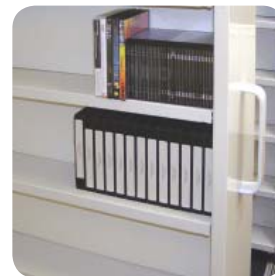

### Unique Tracks

"Low profile" tracks reduce trip hazards and provide trolley and wheelchair access. Tracks can be spliced allowing for extension using existing components.

### Stability

In-built anti-tilt mechanism means tracks do not require fixing to floor surfaces and units do not require overhead stabilisers.

### Multimedia Compactus

Clever use of standard components allows a tailored multimedia solution to be created. The 130mm deep shelf is perfect for DVD's Cd's and videos.

# Freetrack accessories

## Finishing Panels

Add on Frame Finishing Panels, Rear Covers and Top Extrusions provide a clean smart finish

## Binning Dividers

Create pigeon holes with bright silver binning dividers.

## Bin Front/Back Stops

Bin front/back stops bolted to front or rear face of shelf to secure items.

## Files and Labels

A complete range of files, labels and fasteners are available.

## Shelf Divider

Slotted shelf secures shelf dividers.

## Shelf Bins

Create 'drawer like' access or small parts storage.

## Coat Rail

Coat rail for clothes and other hanging devices.

## Dust Cover

Dust covers can be bolted to the top shelf to minimise dust penetration.

## Suspension Filing Drawer

Suspension filing drawer is designed to suit drop-in suspension files.

## Pull-Out Reference Shelf

Pull-out reference shelves provide an instant work top.

## Suspended Filing Rack

Suspended filing rack simply slips to support files and promotes longer lateral file life.

## Suspended Divider/ Lateral Pockets

Unique shelf design for suspended dividers and lateral pockets.
