Smartstore G3 Tambour Cabinet

⊘DEXION®

Introduction

The Smartstore G3 Tambour Cabinet perfectly blends generous storage capacity with a modern design aesthetic. Of the many key features, perhaps the most striking is the clever articulated curtain design that allows quick, easy accessibility while ensuring open doors do not impede on floor space in front of the cabinet.

The diverse range of sizes are flexible enough to accommodate all modern office environments, while the smaller sizes have been specifically designed to align with common workstation screen heights to maintain an open plan ambience.

The Smartstore G3 Tambour Cabinet is fitted with ABS door slats as standard to prevent the emission of fumes in case of a fire.

The Smartstore G3 Tambour Cabinet boasts innovative full height magnetic strips on the door posts to ensure a tight, secure and seamless finish when doors are closed.
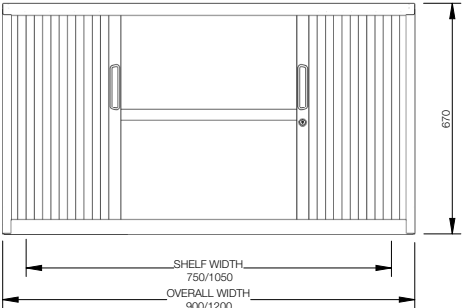

Features

- Achieve maximum storage capacity across a range of cabinet sizes incorporating fully adjustable shelves
- Environmentally sustainable ABS door slats as standard
- Secure Pincer locking system provides ultimate peace of mind with one key operating two lock latches with separate anchor points in the door.
  Secure 3000 series locking system including master key availability
- Levelling feet as standard and adjustable from the base inside the unit
- Optional lockable heavy duty castors (height restrictions may apply)
- Wide variety of accessories which are interchangeable across Dexion products
- Magnetic strips to door posts eliminate door gaps
- Complimentary matching planter box range
- Removable barrel folding key with antimicrobial properties for durability, pocket comfort and hygiene
- Made from 100% recyclable sheet steel
- Durable powder coat finish

Other

Planter integration

Smartstore G3 Planter boxes are designed specifically for integration with the Smartstore G3 cabinet range. Planter boxes and cabinets are designed to align with standard heights in the cabinet range producing clean, consistent lines.

Please note: the recommended maximum height combination should not exceed 1430mm. The maximum height is achieved by using a 1200mm high cabinet with a standard 230mm planter box. Planter boxes accept 200mm diameter pots.
